

Milica Pantelic

Web Developer

Belgrade, Serbia • + 381691408997 • milica.pantelic.14@gmail.com

Portfolio: <https://miicy.github.io/portfolio/>

Web Developer with expertise in HTML, CSS, JavaScript, and React. I've actively contributed to various projects, including freelance work, which provided a solid foundation in responsive web applications. Proficient in both independent and collaborative work, I'm driven by a deep passion for continuous improvement, which fuels my eagerness to tackle future challenges in my career.

RELEVANT WORK EXPERIENCE

Freelance Work:

E-commerce Website and Admin Panel Development 2023

- Developed front-end web application using React.js.
- Ensured full responsiveness for mobile and desktop users.
- Developed an admin panel that reduced operational costs by 15%.
- Collaborated on backend enhancements for a seamless end-to-end user experience.
- Utilized Git and GitHub for effective version control.

Car Ride Booking Application - Admin Panel Design Development 2023

- Streamlined administrative tasks and enhanced platform management.
- Implemented real-time data analytics, reducing booking processing time by 20%.

Game-Related Frontend Development 2022

- Collaborated closely with designers to create a compelling frontend for a game-related website.
- Integrated game APIs to provide essential information to the gaming community.

Tech Support 2021-2022

Agencija "Racunovodja" Valjevo, Serbia

- Provided comprehensive training to employees on the utilization of accounting software, ensuring seamless integration into daily operations.
- Optimized professional communication through the composing and dispatching of business-related emails, proposals, and support for various office tasks, ensuring a seamless workflow.
- Executed fundamental financial transactions, encompassing salary calculations, tax management, and travel expense orders, optimizing financial processes.

Web Development and Design Intern 2020

Poslovni Inkubator, Valjevo, Serbia

- Developed web pages using HTML, CSS, and JavaScript.
- Designed logos and enhanced site visuals.
- Showcased adaptability and problem-solving skills by consistently maintaining and updating the website.
